

Dorado Inclined Platform Lifts

Features

- Convenient and Easy to Use
- Numerous Built-in Safety Features
- Works on Any Straight Stair
- Right or Left Hand Fixing
- Only 330mm Deep When Parked
- Pressure-Sensitive Ramps and Undertray
- Internal or External Installation

A Niche Dorado Inclined Platform Lift can often be the perfect solution for buildings that have limited space, or for situations where a traditional enclosed passenger lift or vertical rise platform lift is unsuitable. They are designed and manufactured specifically for straight stairways to assist wheelchair users in gaining access to an upper floor.

Niche Dorado Inclined Lifts help businesses achieve the requirements of the Equality Act. They are Machinery Directive 2006/42/EC compliant and carry CE marks.

These are simple and easy to install, and are suitable for both internal and external environments.

Dorado Inclined Platform Lifts

Niche Dorado Inclined Platform Lifts are designed for straight stairways, and their compact folded platforms provide a smooth ride for wheelchair users. Their fully automatic operation makes them safe and easy for passengers to utilise, with no special training or requirements necessary to operate them.

Although primarily designed for wheelchair users, a Niche Dorado Platform Lift is ideal for passengers with varying mobility issues.

For easy installation, our inclined platform lifts can be mounted on either side of the stairway and are suitable for buildings with up to two landings. We also provide options for platforms in three different sizes in order to accommodate assorted types of wheelchairs.

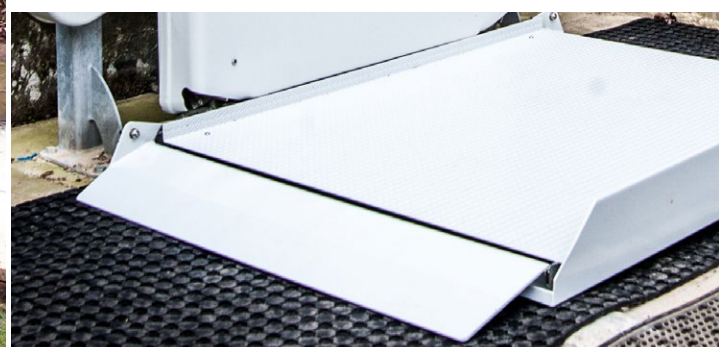

When parked and folded, our inclined stairlifts have a profile of only 330mm, making them unobtrusive and leaving the staircase clear for other users. They can also be installed with little or no structural modifications to the original stairway.

So for a simple, effective solution to your disabled access needs, consider the quick, no-hassle installation of a Niche Dorado Inclined Platform Lift in your property.

Benefits

- No additional space necessary on the upper landing
- Internal and external options
- Compact design
- Optional load requirements
- One day installation (subject to site conditions)
- Folds flat against the wall when not in use
- Quiet and easy to use
- Joystick control from the platform
- Wall mounted key switch call, send and stop buttons
- Soft start
- Non slip floor
- Automatic safety stop and overload features
